## PROJECTS

### My-Food — *Flutter App, Dart Language*

Working with a team of 12 inspired students with assigned roles and me as junior back end developer. The App is about keeping track of groceries in the fridge by scanning the receipt and taking out the food item as per the requirement of dish ingredients from the fridge.

### Orientation App — *Flutter App, Dart Language*

This app project is taken as an internship, that helps students with orientation and keep track of events. It will have Augmented reality tours and information about how to get a license, SSN, etc.
